

ngap\_cell\_size

```
classDiagram
    class ngap_cell_size {
    }
    class srsran_srs_cu_cp_ngap_cell_type["srsran::srs_cu_cp::ngap_cell_type"] {
    }
    ngap_cell_size o-- srsran_srs_cu_cp_ngap_cell_type : +cell_size
```

The diagram consists of two class boxes. The top box, representing the class `ngap_cell_size`, is white with a black border and contains three empty rectangular compartments. The bottom box, representing the class `srsran::srs_cu_cp::ngap_cell_type`, is gray with a black border and contains three rectangular compartments; the top one is filled with text, while the two below it are empty. A blue line connects the bottom compartment of the top box to the top compartment of the bottom box. This line terminates in a blue diamond, which is a UML notation for an aggregation relationship. To the right of the blue line, the text `+cell_size` is written in a light gray font.
