

uint8\_t

The diagram illustrates a pointer relationship. At the top, a white box with a black border represents a variable of type 'uint8\_t'. It is divided into three horizontal sections. A blue line descends from the bottom of this box to a blue diamond, which is positioned at the top of a larger, gray-shaded box. This gray box represents an array and is also divided into three horizontal sections. The text 'asn1::flap::tx\_comb' is located in the top section of the gray box, and '\_c::n4\_s\_' is in the section immediately below it. To the right of the blue line, the text '+comb\_offset\_n4' and '+cyclic\_shift\_n4' is displayed in a light gray font.

+comb\_offset\_n4  
+cyclic\_shift\_n4

asn1::flap::tx\_comb  
\_c::n4\_s\_
