A diagram illustrating inheritance. At the bottom is a gray rectangular box representing the base class, labeled 'detail::data'. It is divided into three horizontal sections. A blue arrow points upwards from the top section of this box to the bottom of a larger white rectangular box above it. This white box represents the derived class 'detail::basic_data< T >'. The white box contains a list of member functions, each preceded by a '+' sign. The list includes: powers_of_10_64, zero_or_powers_of_10_32, zero_or_powers_of_10_64, pow10_significands, pow10_exponents, digits, hex_digits, foreground_color, background_color, reset_color, wreset_color, signs, left_padding_shifts, and right_padding_shifts. The white box is also divided into three horizontal sections, with the list of functions in the middle section.
