

std::false_type

```
graph BT; A[srsran::detail::is_expected<T>] --> B[std::false_type];
```

The diagram illustrates an inheritance relationship. At the bottom is a gray box representing the base class `srsran::detail::is_expected< T >`. A blue arrow points upwards from this box to a white box at the top representing the derived class `std::false_type`. Both boxes are divided into three horizontal sections.

srsran::detail::is
_expected< T >
