

uint8_t

```
classDiagram
    class uint8_t {
    }
    class srsran_srs_cu_cp_rrc_n4 {
    }
    uint8_t o-- "1" srsran_srs_cu_cp_rrc_n4 : +comb_offset_n4, +cyclic_shift_n4
```

The diagram illustrates an aggregation relationship between a `uint8_t` class and a `srsran::srs_cu_cp::rrc_n4` class. The `uint8_t` class is represented by a white box with a black border, divided into three horizontal sections. The top section contains the text `uint8_t`, while the middle and bottom sections are empty. The `srsran::srs_cu_cp::rrc_n4` class is represented by a gray box with a black border, also divided into three horizontal sections. The top section contains the text `srsran::srs_cu_cp::rrc_n4`, while the middle and bottom sections are empty. A blue line connects the bottom of the `uint8_t` class to a blue diamond on the top of the `srsran::srs_cu_cp::rrc_n4` class, indicating an aggregation relationship. To the right of this line, the text `+comb_offset_n4` and `+cyclic_shift_n4` is displayed in gray, representing the attributes of the `uint8_t` class that are aggregated in the `srsran::srs_cu_cp::rrc_n4` class.
