

std::false\_type

```
classDiagram
    class std_false_type["std::false_type"]
    class srsran_detail_is_container_compatible["srsran::detail::is_container_compatible< Container, U, class >"]
    srsran_detail_is_container_compatible --|> std_false_type
```

The diagram consists of two class boxes. The top box, representing `std::false_type`, is white with a thin grey border and is divided into three horizontal sections. The bottom section is empty. The bottom box, representing `srsran::detail::is_container_compatible < Container, U, class >`, is grey with a thin grey border and is also divided into three horizontal sections. The top section contains the text, while the two bottom sections are empty. A blue arrow with an open triangular head points from the top edge of the bottom box to the bottom edge of the top box, indicating an inheritance relationship.

srsran::detail::is  
\_container\_compatible  
< Container, U, class >
