

std::false_type

```
classDiagram
    class std_false_type["std::false_type"]
    class srsran_srsvec_detail_is_complex_span_compatible["srsran::srsvec::detail::is_complex_span_compatible<T, typename>"]
    srsran_srsvec_detail_is_complex_span_compatible --|> std_false_type
```

The diagram illustrates an inheritance relationship. At the bottom is a gray-shaded box representing the class `srsran::srsvec::detail::is_complex_span_compatible < T, typename >`. A blue arrow with an open triangular head points from the top center of this box to the bottom center of a white box above it. The white box represents the class `std::false_type` and is divided into three horizontal sections, with the top section containing the text `std::false_type`.

srsran::srsvec::detail
::is_complex_span_compatible
< T, typename >
