

options

```
classDiagram
    class options {
    }
    class "asn1::ngap::paging_cause_opts" {
    }
    options o-- "asn1::ngap::paging_cause_opts" : +value
```

The diagram illustrates an aggregation relationship between two classes. The top class, 'options', is represented by a white rectangle with a black border and is divided into three horizontal sections. The bottom class, 'asn1::ngap::paging\_cause\_opts', is represented by a gray rectangle with a black border and is divided into three horizontal sections. A blue line connects the bottom of the 'options' class to the top of the 'asn1::ngap::paging\_cause\_opts' class, ending in a blue diamond, which signifies an aggregation relationship. To the right of this line, the text '+value' is written in gray.

+value
