

std::false_type

```
graph BT; A[srsran::is_complex< T >] --> B[std::false_type];
```

The diagram illustrates an inheritance relationship. At the bottom is a grey rectangular box representing the base class `srsran::is_complex< T >`. It is divided into three horizontal sections, with the top section containing the text. A blue arrow points upwards from the top edge of this box to the bottom edge of a white rectangular box above it. The white box represents the derived class `std::false_type` and is also divided into three horizontal sections, with the top section containing its text.

srsran::is_complex< T >
