

std::true\_type

The diagram illustrates an inheritance relationship. At the bottom is a gray box representing the base class `is_contiguous< basic_memory_buffer< T, SIZE, Allocator > >`. A blue arrow points upwards from the top center of this box to the bottom center of a white box above it. The white box represents the derived class `std::true_type` and is divided into three horizontal sections: the top section contains the text `std::true_type`, and the two bottom sections are empty.

is\_contiguous< basic  
\_memory\_buffer< T, SIZE,  
Allocator > >
