

unsigned

The diagram illustrates an offset calculation. At the top, a white box labeled 'unsigned' is divided into three horizontal sections. A blue line descends from the bottom of this box, passing through the offset text, and ending at a blue diamond on the top edge of a gray box. The gray box is labeled 'srsran::pdcch_slot_allocator::tree_node' and is also divided into three horizontal sections. The offset text, '+dci_iter_index +ncce +record_index', is positioned to the right of the blue line.

+dci_iter_index
+ncce
+record_index

srsran::pdcch_slot
_allocator::tree_node
