

options

```
classDiagram
    class options {
    }
    class "asn1::rrc_nr::uac_access_category1_sel_assist_info_opts" {
    }
    options o-- "asn1::rrc_nr::uac_access_category1_sel_assist_info_opts" : +value
```

The diagram shows a class named 'options' at the top, represented by a rectangle with three horizontal compartments. The top compartment contains the text 'options'. Below it is a blue line representing an aggregation relationship, ending in a hollow diamond. To the right of this line is the label '+value'. This line connects to a larger, shaded gray rectangle at the bottom. This rectangle has three horizontal compartments. The top compartment contains the text 'asn1::rrc_nr::uac_access_category1_sel_assist_info_opts'. The bottom compartment is split into two parts: a '+' sign on the left and the text 'to_string()' on the right.

+value

asn1::rrc_nr::uac_access
_category1_sel_assist_info_opts

+

to_string()
