

uint8_t

The diagram illustrates a pointer relationship. At the top, a white box represents a `uint8_t` variable. It is divided into three horizontal sections, with the top section labeled `uint8_t`. A blue line descends from the bottom of this box, ending in a blue diamond shape. This diamond points to the top section of a larger, gray-shaded box below. The gray box is also divided into three horizontal sections. The top section contains the text `asn1::flap::tx_comb_pos_c::n2_s_`. To the right of the blue line, the text `+comb_offset_n2` and `+cyclic_shift_n2` is displayed in a light gray font.

+comb_offset_n2
+cyclic_shift_n2

asn1::flap::tx_comb
_pos_c::n2_s_
