

srsran::get_scrambling_n_ID

srsran::get_scrambling
_n_RNTI

srsran::search_space
_configuration::is_common
_search_space

```
graph LR; A[srsran::get_scrambling_n_ID] --> C[srsran::search_space_configuration::is_common_search_space]; B[srsran::get_scrambling_n_RNTI] --> C;
```

The diagram illustrates a dependency or relationship between three code elements. On the left, two white rectangular boxes with black borders contain the function names 'srsran::get_scrambling_n_ID' and 'srsran::get_scrambling_n_RNTI'. On the right, a larger gray rectangular box with a black border contains the function name 'srsran::search_space_configuration::is_common_search_space'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that the two functions on the left depend on or call the function in the gray box.
