

uint8\_t

The diagram illustrates a pointer relationship between a variable and a struct field. At the top, a white box with a black border represents a variable of type 'uint8\_t'. It is divided into three horizontal sections, with the top section containing the text 'uint8\_t'. A blue line descends from the bottom of this box, ending in a blue diamond shape that points to the top of a larger, gray-shaded box below. To the right of the blue line, the text '+comb\_offset\_n2' and '+cyclic\_shift\_n2' is displayed in a light gray font. The gray box represents a struct and is divided into three horizontal sections. The top section contains the text 'asn1::rrc\_nr::srs\_res\_s::tx\_comb\_c\_n2\_s\_', while the two bottom sections are empty.

+comb\_offset\_n2  
+cyclic\_shift\_n2

asn1::rrc\_nr::srs\_res  
\_s::tx\_comb\_c\_n2\_s\_
