

unsigned

```
classDiagram
    class unsigned {
    }
    class srsran_ru_ofh_impl_config {
    }
    unsigned --> srsran_ru_ofh_impl_config
```

The diagram shows a class named 'unsigned' at the top, represented as a rectangle divided into three horizontal sections. The top section contains the text 'unsigned'. A blue line descends from the bottom of this class, ending in a blue diamond. This diamond is connected to the top of a larger, shaded gray rectangle representing a struct. The struct is divided into three horizontal sections. The top section contains the text 'srsran::ru_ofh_impl_config'. To the right of the blue line, there is a text label: '+nof_slot_offset_du' on the first line, '_ru' on the second line, '+nof_symbols_per' on the third line, and '_slot' on the fourth line.
