

std::false_type

```
graph BT; A["srsran::srsvec::detail::is_integral_span_compatible<T, typename>"] --> B["std::false_type"]
```

The diagram illustrates an inheritance relationship. At the bottom is a gray rectangular box representing the base class `srsran::srsvec::detail::is_integral_span_compatible<T, typename>`. It contains three horizontal sections, with the top one containing the text. A blue arrow points upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box represents the derived class `std::false_type` and also contains three horizontal sections, with the top one containing its text.

srsran::srsvec::detail
::is_integral_span_compatible
< T, typename >
