

options

```
classDiagram
    class options {
    }
    class tx_cfg_opts {
        +value
        + to_string()
    }
    options o--> tx_cfg_opts : +value
```

The diagram shows a class named 'options' at the top, represented by a rectangle divided into three horizontal sections. The top section contains the text 'options', while the two bottom sections are empty. Below 'options' is a class named 'asn1::rrc_nr::pusch_cfg_s::tx_cfg_opts', represented by a rectangle divided into three horizontal sections. The top section contains the text 'asn1::rrc_nr::pusch_cfg_s::tx_cfg_opts', the middle section is empty, and the bottom section contains '+ to_string()'. A blue line connects the bottom of the 'options' class to the top of the 'asn1::rrc_nr::pusch_cfg_s::tx_cfg_opts' class. This line features a blue open diamond at its connection point to the bottom class, indicating an aggregation relationship. To the right of this line, the text '+value' is written in a light gray font.

+value

asn1::rrc_nr::pusch
_cfg_s::tx_cfg_opts

+ to_string()
