

unsigned

The diagram consists of two main rectangular boxes. The top box is white with a black border and is divided into three horizontal sections. The top section contains the text 'unsigned'. A blue line extends downwards from the bottom of this box. To the right of the line, there is a list of five offset terms, each preceded by a plus sign: '+cw\_offset', '+full\_length', '+nof\_crc\_bits', '+nof\_filler\_bits', and '+rm\_length'. The blue line terminates in a small blue diamond shape, which points to the top of a second, larger rectangular box. This second box is gray with a black border and is also divided into three horizontal sections. The top section contains the text 'srsran::codeblock\_metadata' followed by '::cb\_specific\_metadata' on the next line. The bottom two sections of this box are empty.

+cw\_offset  
+full\_length
